📄 PROFILE

Frontend-focused developer with a Computer Science background and an MBA, combining technical expertise with business acumen. Experienced in building scalable web applications, coordinating cross-functional teams, and contributing to product development from concept to deployment. Passionate about creating high-performance interfaces that align with strategic business goals.

🌐 SKILLS

Languages

JavaScript, TypeScript, Python

Frontend

React, Redux, Vite, HTML, CSS, Tailwind CSS

Backend

Node.js, Express, REST APIs, JWT

Database & Tools

PostgreSQL, Sequelize, Redis, Elasticsearch

Tools

Git, Postman, React Router

👛 WORK EXPERIENCE

Trainee Engineer (Web Development)

Project Code

08/2025 – Present | Dhaka (Hybrid)

- Develop full-stack features for production web apps using React, Redux, Node.js, and PostgreSQL.
- Implement authentication, caching with Redis, and Elasticsearch for optimized search functionality.
- Apply TDD and clean code principles to ensure scalable, maintainable code.

Web Development Intern

Project Code

04/2025 – 07/2025 | Dhaka (On-site)

- Built responsive UIs with React, JavaScript, and Tailwind CSS, focusing on performance.
- Created reusable component libraries and integrated RESTful APIs using Postman.
